

CALL FOR SOUND BASED WORKS

Hit presents:

Art is not Mute, The Ersta Konsthall Sound Archive

During the exhibition period (FEBRUARY 2nd – MARCH 2nd) Hit will be presenting the sound archive Art is not mute.

Art is not mute was initiated by Linus Elmes, Paola Zamora and Sofia Curman at Ersta Konsthall during spring 2007. Ersta Konsthall wanted to collect and compile art sounds from different genres, from all over the world in an archive in Sweden.

Hit is now looking for artists to participate with their sound based work. All recorded work without borders of genre – sound experiments, experimental sound, electro, speech, noise, silence, soundtracks – are qualified to participate in the project. All tracks will be available on a mp3 player, and visitors can listen to the sounds via headphones. Covers and booklets will also be exhibited.

If you want to contribute, please send two CD's of your album or sound pieces along with contact information and covers or boklets, if there is any, to:

Hit
Älvsborgsgatan 52
SE -414 72 Göteborg
Sweden

We welcome contributions until the end of March but if you want your sound pieces to be available during the exhibition in Gothenburg, please send your work before January 29th.

All tracks will be archived in the Ersta Konsthall Sound Archive.
